German Benchmark Initiative Attracts Interest from Hospitals Beyond Magnet4Europe Project

By Susann Winter, Corporate Communications, BG Klinikum Bergmannstrost Halle

Five German hospitals on their way to Magnet have worked on a German national nursing data base since 2022. The comparability of hospitals is a big part of Magnet, but in Germany, the lack of a nationwide benchmarking system has posed a challenge to ensuring this comparability among hospitals. However, the pioneering initiative, *B-IN Pflege*, has garnered significant attention and continues to grow steadily. The first nursing data is being collected.

What is Magnet4Europe?

The Magnet4Europe study aims to implement and evaluate the Magnet® model of organizational redesign of clinical health care work environments in over 60 hospitals in 6 European countries to promote the mental health and wellbeing of health professionals, enhance their productivity, and in doing so to improve outcomes of the patients under their care.

The project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 848031.
